FY 2017-18 saw a mixed performance in both operating and financial parameters of the airport sector and EPC division. Airport sector overall performance declined due to reduction in aero revenue in DIAL on account of implementation of tariff order from AERA, while EPC revenues increased significantly on account of pick up in execution of Dedicated Freight Corridor (DFCC) project. There was very good growth in energy revenues, but highways revenue remained stagnant. Consolidated Revenues do not include the revenues of entities which were assessed as jointly controlled entities / JVs under Ind AS, including, GMR Energy Limited (GEL), GMR Kamalanga Energy Limited (GKEL), GMR Warora Energy Limited (GWEL) and Delhi Duty Free Services Private Limited (DDFS). Airport, Energy, Highways, EPC and other segments contributed ₹ 5418.74 Crore (62.13%), ₹ 1,533.53 Crore (17.58%), ₹ 589.70 Crore (6.76%), ₹ 931.12 Crore (10.68%) and ₹ 248.14 Crore (2.85%) respectively to the consolidated revenue from operations.

Decrease in revenue share paid / payable to concessionaire grantors was on account of lower revenue from DIAL. Increase in subcontracting expenses is mainly on account of EPC works.

Energy Sector

The Energy Sector companies are operating around 4,425 MWs of Coal, Gas, Liquid fuel and Renewable power plants in India and around 2,205 MWs of power projects are under various stages of construction and development, besides a pipeline of other projects. Following are the major highlights of the Energy Sector:

A. Operational Assets:

I. Generation:

1. GMR Warora Energy Limited (GWEL) - 600 MW:

- The Plant consists of 2 x 300 MW coal fired units with all associated auxiliaries and Balance of Plant Systems. GWEL has a Coal supply Agreement with South Eastern Coalfields Limited (SECL) for a total Annual Contracted Quantity (ACQ) of 2.6 Million Tonnes per annum.
- During the year, the Plant has achieved availability of 72% and Gross Plant Load Factor (PLF) of 71%.
- Plant achieved lower plant availability and PLF due to severe coal supply shortage across the industry.
- We expect the coal supply levels will increase during the year and more coal will be taken through alternative modes like e-auction of coal.
- Regulatory orders for Tamil Nadu Generation and Distribution Corporation Limited (TANGEDCO) Power Purchase Agreement (PPA) for "change in law" was received during the year. GWEL has started billing for Change in Law to TANGEDCO.
- Weir for water availability by Maharashtra Industrial Development Corporation (MIDC) was commissioned during the year.

- GKEL has Fuel Supply Agreement (FSA) for 2.14 MTPA firm linkage from Mahanadi Coalfields Limited (MCL). GKEL secured another 1.5 MTPA long-term FSA under SHAKTI linkage auction during the year.
- CERC issued favorable order in bill dispute petition filed against Haryana and directed to release overdue claims to GKEL. This will help in easing of cash flows.
- During this period, GKEL achieved availability of 75% and PLF of 61%. Lower Availability & PLF was due to discontinuation of tapering linkage of 550 MW in FY 2017, however, now based on the new SHAKTI linkage of 1.5 MTPA availability and PLF will improve significantly.

3. GMR Chhattisgarh Energy Limited (GCEL) – 1,370 MW:

- GCEL is a 1,370 MW (2 x 685 MW) pulverized coal- fired super critical technology based plant in Raipur district in the State of Chhattisgarh.

- Due to unfavorable decision in RLNG matter, other avenues for gas

supply in this scenario are being explored continuously.

5. GMR Rajahmundry Energy Limited (GREL) – 768 MW:

- GREL is a 768 MW (2 x 384 MW) combined cycle gas based power project at Rajahmundry, Andhra Pradesh.
- Lenders have invoked SDR. As a consequence, outstanding debt of ₹ 1,413.99 Crore (₹ 1,308.57 Crore of principal and ₹ 105.42 Crore of interest accrued thereon) was converted into equity amounting to 55% shareholding in GREL. The balance is being held by the GMR Group.

With significant changes in business environment over the last couple of years, your Company's businesses face emerging risks that require effective risk management framework and dedicated resources to implement the framework.

Your Company's ERM framework follows the current best practices in order to achieve Company's objectives.

Significant developments during the year under review are as follows:

- Risk assessment was carried out in detail at bid stage for Bhogapuram International Airport (Andhra Pradesh), Belgrade International Airport (Serbia), Clark International Airport (Philippines), Bijwasan Railway Station Development (New Delhi), Hybrid-Annuity Highway

projects (NHAI). The ERM made a comprehensive risk assessment on key business assumptions for the bid for enabling informed decision-making;

- ERM also carried out risk analysis for select business operations. The risk management function is also being established at the sectors with expert advice from outsourced partners.
- For the ongoing railway projects under DFCC and the new projects, ERM leads the project risk assessment in coordination with the project teams. The deployment of Project Risk Management (PRM) framework has enabled effective control over project costs.

The Group is working on several fronts to address the financing risks associated with the nature of its business.

The Company is focused on unlocking the value potential of its Airports business. In addition, the management has continued thrust on greater cash flow from operations with greater profitability focus, asset monetisation and collection of regulatory receivables. Taking into account the stress in the banking sector, the Group, where market conditions are favourable, has decided to raise bonds for its financing needs as against depending on loans from the banks. The Company is also working closely with lenders for two of our stressed energy projects which have undergone Strategic Debt Restructuring, to address issues keeping in view the most recent RBI guidelines.

With rapidly changing business environment, the Group feels the need for a measurable approach to decide the amount of risks it can take in achieving its business objectives. A draft Risk Appetite Framework for the Group is under development and review with an objective to establish thresholds for quantum of risks that the Group can accept. The Physical Risk Benchmarking framework developed earlier, is under implementation at Airport and Energy assets.

Updates on ERM activities are shared on a regular basis with Management Assurance Group (MAG), the Internal Audit function of the Group.

The Company has in place the Risk Management Policy duly approved by the Board of Directors.

Statutory Auditors' Qualification / Comment on the Company's standalone financial statement

- 1) GMR Generation Assets Limited ("GGAL") along with its subsidiaries/ joint ventures and associates have been incurring losses. Based on the valuation assessment carried out by an independent expert during the year ended March 31, 2018, there is a diminution in the value of the Company's investment in GGAL as at March 31, 2018 of ₹ 2,830 crore. The Company has not accounted for the aforesaid diminution in the value of investment in the accompanying standalone Ind AS financial results for the quarter and year ended March 31, 2018. In the opinion of the Statutory Auditor, the aforesaid accounting treatment is not in accordance with the relevant accounting standards. Had the management provided for the aforesaid diminution, the loss after tax for the quarter and year ended March 31, 2018 would have been higher by ₹ 2,830 crore with a consequent impact on the reserves as at March 31, 2018.

Management's response to the Statutory Auditors' Qualification / Comment on the Company's standalone financial statement

Considering that GCEL and GREL were under Strategic Debt Restructuring with consortium of banks acquiring majority stake, the management of the Group is not in a position to precisely assess the impact of the uncertainties on the carrying costs of various projects, though valuation assessment was done which placed the diminution at ₹ 2,830 Crore. Management is of the view, considering that the

lenders of some of these projects are actively pursuing resolution plans to make these projects viable in the near future, the assessed diminution may significantly come down on successful implementation of resolution plans. Further in case of some of the projects, the diminution may not be permanent and significant improvements in the viability of these projects are likely in the near future. Taking in account the above factors, management is of the view that the assessed diminution need not be provided for in the standalone Ind AS financial statements for the year ended March 31, 2018.

Statutory Auditors' Qualification / Comment on the Company's standalone financial statement

- 2) GMR Energy Limited ("GEL") and GMR Vemagiri Power Generation Limited ("GVPG"), joint ventures of the Company have ceased operations and have been incurring losses with a consequent erosion of net worth resulting from the unavailability of adequate supply of natural gas. GMR Rajahmundry Energy Limited ("GREL"), a joint venture of the Company have rescheduled the repayment of project loans with the consequent implementation of the Strategic Debt Restructuring Scheme to convert part of the debt outstanding into equity and to undertake flexible structuring of balance debt for improving viability and revival of the project pending linkage of natural gas supply. Continued uncertainty exists as to the availability of adequate supply of natural gas which is necessary to conduct operations in these entities at varying levels of capacity in the future and the appropriateness of the going concern assumption of these entities is dependent on the ability of the aforesaid entities to establish consistent profitable operations as well as raising adequate finance to meet short term and long term obligations and accordingly the statutory auditors are unable to comment on the carrying value of the Company's investment (including advances) in these entities as at March 31, 2018.

Management's response to the Statutory Auditors' Qualification / Comment on the Company's standalone financial statement

The Management along with various stakeholders, including Central and State Governments have formulated schemes for efficient utilisation of these facilities, though these efforts have not brought in permanent resolutions to the operations. The management and the Association of Power Producers continue to monitor the macro situation and are evaluating various approaches / alternatives to deal with the situation and the management of the Group is confident that Government of India ("GoI") would take further necessary steps / initiatives in this regard to improve the situation regarding availability of natural gas from alternate sources in the foreseeable future. Currently the lenders for GREL are actively pursuing the resolution plan as per the directives of RBI and management is confident that suitable plans would be implemented in the near future which would improve the profitability and consequently the carrying cost of these companies. Taking into account the uncertainties associated with the efforts of various stakeholders, management is not in a position to assess the impact of these measures on the carrying values.

Statutory Auditors' Qualification / Comment on the Company's standalone financial statement

- 3) The Company's internal financial control with regard to assessment of carrying value of investments in certain subsidiaries/ joint ventures as more fully explained in notes 5(4) and 5(7) to the standalone Ind AS financial statements were not operating effectively and could potentially result in the Company not providing for adjustments that may be required to be made to the carrying value of such investments.

Management's response to the Statutory Auditors' Qualification / Comment on the Company's standalone financial statement

Qualification in the report on internal financial controls over financial reporting regarding assessment of carrying value of investments in GGAL & GEL - The Group has a robust system in place to assess the appropriateness of the carrying value of its investments, including testing for impairments. Management's view on the instant cases are explained in the paras 1 and 2 above.

Statutory Auditors' Qualification / Comment on the Company's consolidated financial statement

- 1) GMR Chhattisgarh Energy Limited ("GCEL") and certain other entities, have been incurring losses. Based on the valuation assessment carried out by an independent expert during the year ended March 31, 2018, there exists an impairment as at March 31, 2018 of ₹ 2,250 crore. The Group has not accounted for the aforesaid impairment loss in the accompanying consolidated Ind AS financial results for the quarter and year ended March 31, 2018. In the opinion of statutory auditor, the aforesaid accounting treatment is not in accordance with the relevant accounting standards. Had the management provided for the aforesaid impairment loss, the loss after tax and minority interest for the quarter and year ended March 31, 2018 would have been higher by ₹ 2,250 crore with a consequent impact on the consolidated reserves as at March 31, 2018.

Management's response to the Statutory Auditors' Qualification / Comment on the Company's consolidated financial statement

Considering that GCEL and GREL were under Strategic Debt Restructuring with consortium of banks acquiring majority stake, the management of the Group is not in a position to precisely assess the impact of the uncertainties on the carrying costs of various projects, though valuation assessment was done which placed the diminution at ₹ 2,250 crore. The management of the Group, including the lenders who also collectively are the majority shareholders, have initiated a process for 'change of control' of GMR Chhattisgarh Energy Limited ("GCEL"), which entails sale of up to 100% equity stake of GCEL. The process is in an advanced stage and is expected that the process of change in control would be completed by August 2018. Management is of the view, considering that the lenders of some of these projects are actively pursuing resolution plans to make these projects viable in the near future, the assessed diminution, which is based on some critical assumptions made by current management, may significantly come down on successful implementation of resolution plans.

Further in case of some of the projects, the diminution may not be permanent and significant improvements in the viability of these projects are likely in the near future with various policy initiatives of the government taking shape. Taking in account the above factors, management is of the view that the assessed diminution need not be provided for in the consolidated Ind AS financial statements for the year ended March 31, 2018.

Statutory Auditors' Qualification / Comment on the Company's consolidated financial statement

- 2) GMR Energy Limited ('GEL') and GMR Vemagiri Power Generation Limited ('GVPGI'), joint ventures of the Group have ceased operations and have been incurring losses with a consequent erosion of net worth resulting from the unavailability of adequate supply of natural gas. GMR Rajahmundry Energy Limited ('GREL'), a joint venture of the Group have rescheduled the repayment of project loans with the consequent implementation of the Strategic Debt Restructuring Scheme to convert part of the debt outstanding into equity and to undertake flexible structuring of balance debt for improving viability and revival of the project pending linkage of natural gas supply. Continued uncertainty exists as to the availability of adequate supply of natural gas which is necessary to conduct operations in these entities at varying levels of capacity in the future and the appropriateness of the going concern assumption of these entities is dependent on the ability of the aforesaid entities to establish consistent profitable operations as well as raising adequate finance to meet short term and long term obligations and accordingly the Statutory Auditor are unable to comment on the carrying value of the Group's assets (including advances) in these gas based entities as at March 31, 2018.

Management's response to the Statutory Auditors' Qualification / Comment on the Company's consolidated financial statement

The Management of the Group along with various stakeholders, including Central and State Governments have formulated schemes for efficient utilisation of these facilities, though these efforts have not brought in permanent resolutions to the operations. The management of the Group and the Association of Power Producers continue to monitor the macro situation and are evaluating various approaches / alternatives to deal with the situation and the management of the Group is confident that Government of India ('GoI') would take further necessary steps / initiatives in this regard to improve the situation regarding availability of natural gas from alternate sources in the foreseeable future. Currently the lenders for GREL are actively pursuing the resolution plan as per the directives of RBI and management is confident that suitable plans would be implemented in the near future which would improve the profitability and consequently the carrying cost of these companies. Taking into account the uncertainties associated with the efforts of various stakeholders, management is of the view that carrying values of these projects do not require any adjustment as of date.

Statutory Auditors' Qualification / Comment on the Company's consolidated financial statement

- 3) The tax authorities of Maldives have disputed certain transactions not considered by the management of GMR Male International Airport Private Limited ('GMIAL'), a subsidiary of the Company, in the computation of business profit taxes and withholding tax during the period 1st April, 2013 to 31st May, 2017 and during the year ended December 31, 2017 and have issued notice of tax assessments on business profit taxes and withholding tax together with the applicable fines and penalties. The management of the Group is of the view that such disputes from the tax authorities are not tenable and have disclosed the tax exposures as a contingent liability in the accompanying consolidated Ind AS financial statements for the year ended March 31, 2018. In the absence of comprehensive analysis on the above tax exposures, the Statutory Auditor are unable to determine whether any adjustments might be necessary to the accompanying consolidated financial results for the quarter and year ended March 31, 2018. The auditors of GMIAL have qualified their audit report issued for the year ended March 31, 2018 with regard to the aforesaid matter.

Management's response to the Statutory Auditors' Qualification / Comment on the Company's consolidated financial statement

GMR Male International Airport Private Limited ('GMIAL'), a subsidiary of the Company entered into an agreement on June 28, 2010 with Maldives Airports Company Limited ('MACL') and Ministry of Finance and Treasury ('MoFT'), Republic of Maldives, for the Rehabilitation, Expansion, Modernization, Operation and Maintenance of Male International Airport ('MIA') for a period of 25 years ("the Concession Agreement"). On November 27, 2012, MACL and MoFT issued notices to GMIAL stating that the Concession Agreement was void ab initio and that neither MoFT nor MACL had authority under the laws of Maldives to enter into the agreement and MACL took over the possession and control of the MIA and GMIAL vacated the airport effective December 8, 2012. The matter was under arbitration. During the year ended March 31, 2017, the arbitration tribunal delivered its final award in favour of GMIAL, pursuant to which GMIAL received USD 27.10 Crore from MACL, in view of which GMIAL has recognised the difference between the claims received and the amount recorded as claims recoverable by GMIAL with regard to the aforesaid takeover. The arbitration award has clearly mentioned that the award is net of any tax applicable and GMIAL is entitled to receive the entire award amount.

During the current year, Maldives Inland Revenue Authority ('MIRA') has issued tax audit reports and notice of tax assessments on business profit tax computations and the withholding tax computations of GMIAL for the periods 1st April 2013 to 31st May 2017 and for the year ended March 31, 2017. However, management of the Group is of the view that the notice issued by MIRA is not tenable. Accordingly, no adjustments have been made to the accompanying consolidated financial results of the Group for the quarter and the year ended

March 31, 2018. The statutory auditor of the GMIAL have modified their Audit Report in this regard which has been continued by the auditor of the GMR Infrastructure Limited in their audit report on the consolidated financial statements.

- 4) The Holding Company's internal financial control with regard to assessment of carrying value of investments in certain joint ventures and associates as more fully explained in notes 9(b)(13)(ii), 9(b)(13)(iv) and 9(b)(13)(v) to the consolidated Ind AS financial statements were not operating effectively and could potentially result in the Group not providing for adjustments that may be required to be made to the carrying value of such investments.

Management's response to the Statutory Auditors' Qualification / Comment on the Company's consolidated financial statement

Qualification in the report on internal financial controls over financial reporting regarding assessment of carrying value of investments in certain joint ventures and associates - The Group has a robust system in place to assess the appropriateness of the carrying value of its investments, including testing for impairments.
