

Independent Auditor's Report on the Standalone financial statements of GMR Infrastructure Limited

To the Members of GMR Infrastructure Limited

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of GMR Infrastructure Limited ('the Company'), which comprise the Balance Sheet as at March 31, 2015, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial control system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the standalone financial statements.

Basis for Qualified Opinion

1. As detailed in Note 13(7) to the accompanying standalone financial statements for the year ended March 31, 2015, the Company through its subsidiary, GMR Infrastructure (Mauritius) Limited ('GIML') has investments of ₹ 228.21 Crore (USD 3.62 Crore) (including equity share capital of ₹ 145.67 Crore and share application money pending allotment of ₹ 82.54 Crore) towards 77% equity shareholding in GMR Male International Airport Private Limited ('GMIAL'). Further GIML has placed fixed deposits of ₹ 908.06 Crore (USD 14.40 Crore) with lenders towards loan taken by GMIAL and the Company has given a corporate guarantee of ₹ 2,475.11 Crore (USD 39.25 Crore) to the lenders in connection with the borrowings made by GMIAL. The Concession Agreement entered into between GMIAL, Maldives Airport Company Limited ('MACL') and Ministry of Finance and Treasury ('MoFT'), Republic of Maldives for the Rehabilitation, Expansion, Modernization, Operation

and Maintenance of Male International Airport ('MIA') for a period of 25 years was declared void ab initio by MACL and MoFT and MACL has taken possession of MIA with effect from December 8, 2012. GMIAL has initiated the arbitration process to seek remedies under the said agreement and on June 18, 2014, the tribunal delivered its award declaring that the Concession Agreement was not void ab initio and was valid and binding on the parties. However, the quantum of the damages is yet to be decided and accordingly, pending final outcome of the arbitration, such investment has been carried at cost in the standalone financial statements as at March 31, 2015 as the management is of the opinion that GMIAL will be able to recover at least the carrying value of the assets of ₹ 1,486.96 Crore (USD 23.58 Crore) including claim recoverable of ₹ 1,145.16 Crore (USD 18.16 Crore) as at March 31, 2015.

Further, GMIAL has executed work construction contracts with GADL International Limited ('GADLIL'), a subsidiary of the Company and other service providers for Rehabilitation, Expansion, and Modernization of MIA. Pursuant to the aforesaid takeover of the airport by MACL, GMIAL has terminated the contracts with GADLIL and these service providers and has received claims from GADLIL and other service providers towards termination payments. However, no such claims relating to the termination of contracts have been recognised in the standalone financial statements of GMIAL as at March 31, 2015. The takeover of MIA by MACL, initiation of arbitration proceedings and its consequential impact on the operations indicate the existence of a material uncertainty that may cast a significant doubt about the going concern of GMIAL and GADLIL.

Having regard to the uncertainty in view of the dispute and the final outcome of the matter, we are unable to comment on its impact on the carrying value of the investment pertaining to the aforesaid entities and any other consequential impact that may arise in this regard on the standalone financial statements for the year ended March 31, 2015. In respect of the above matter, our audit report for the year ended March 31, 2014 was similarly qualified. In this regard also refer sub-paragraph (f) in the Emphasis of Matter paragraph.

2. As detailed in Note 13[13(b)] to the accompanying standalone financial statements for the year ended March 31, 2015, the Company along with its subsidiary has made an investment of ₹ 729.43 Crore in GMR Kishangarh Udaipur Ahmedabad Expressways Limited ('GKUAEL'), a subsidiary of the Company (including loans of ₹ 29.43 Crore and investment in equity shares and preference shares of ₹ 700.00 Crore), which is primarily utilised by GKUAEL towards payment of capital advance of ₹ 590.00 Crore to its EPC contractor and ₹ 130.99 Crore towards indirect expenditure attributable to the project and borrowing costs ('project expenses'). GKUAEL has also given a bank guarantee of ₹ 269.36 Crore to National Highways Authority of India ('NHAI'). GKUAEL issued a notice of intention to terminate the Concession Agreement during the earlier year and a notice of dispute to NHAI invoking arbitration provisions of the Concession Agreement during the current year. Both the parties have appointed their arbitrators and the arbitration process is pending commencement. Pursuant to the notice of dispute, GKUAEL terminated the EPC contract on May 15, 2015.

As a result, based on internal assessment, the management of the Company made a provision for diminution in the value of investments/ advances amounting to ₹ 130.99 Crore during the year ended March 31, 2015. However, the notice of dispute and initiation of arbitration proceedings indicate the existence of a material uncertainty that may cast a significant doubt about the going concern of the GKUAEL. Having regard to this uncertainty, we are unable to comment on the final outcome of the matter and its consequential impact on the carrying value of the Company's investment in GKUAEL in the standalone financial statements of the Company for the year ended March 31, 2015.

3. As detailed in Note 26(2) to the accompanying standalone financial statements for the year ended March 31, 2015, the management of the Company recognised the profit on sale of its investments in Istanbul Sabiha Gokcen Uluslararasi Havalimani Yatirim Yapim Ve Isletme Anonim Sirketi ('ISG') of ₹ 458.78 Crore (net of cost incurred towards sale of investments) in the standalone financial statements for the year ended March 31, 2014. In our opinion, since the sale consideration was received, the transfer of shares and certain regulatory approvals were obtained during the year ended March 31, 2015, recognition of the profit on sale of such investments in the standalone financial statements of the Company for the year ended March 31, 2014 was not in accordance with the relevant Accounting Standards and accordingly, should have

been recognised in the standalone financial statements for the year ended March 31, 2015. Accordingly, profit before tax for the year ended March 31, 2014 and loss before tax for the year ended March 31, 2015 would have been lower by ₹ 458.78 Crore. In respect of the above matter, our audit report for the year ended March 31, 2014 was similarly qualified.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effect of the matters described in sub-paragraph (1) and (2) and the effect of the matter described in sub-paragraph (3) in the Basis for Qualified Opinion paragraph, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2015, its loss and its cash flows for the year ended on that date.

Emphasis of Matter

We draw attention to the following matters in the notes to the accompanying standalone financial statements for the year ended March 31, 2015:

- a) Note 13(8) regarding an investment of ₹ 389.52 Crore (including loans of ₹ 149.33 Crore, and interest accrued thereon and investment in equity / preference shares of ₹ 239.59 Crore made by the Company and its subsidiaries) as at March 31, 2015 in GMR Ambala Chandigarh Expressways Private Limited ('GACEPL'), a subsidiary of the Company. Though GACEPL has been incurring losses since the commencement of commercial operations and the matter is currently under arbitration, based on management's internal assessment and a legal opinion such investment has been carried at cost. Accordingly, no provision for diminution in the value of investments has been made in the accompanying standalone financial statements for the year ended March 31, 2015.
- b) Note 13[13(a)] regarding an investment of ₹ 663.15 Crore (including loans of ₹ 361.12 Crore and investment in equity / preference shares of ₹ 302.03 Crore) by the Company along with its subsidiary as at March 31, 2015 in GMR Hyderabad Vijayawada Expressways Private Limited ('GHVEPL'), a subsidiary of the Company. GHVEPL has been incurring losses since the commencement of commercial operations and based on a valuation assessment, the Company made a provision of ₹ 131.41 Crore for the diminution in the value of these investments as at March 31, 2015. In the opinion of the management of the Company, no further provision for diminution in the value of investments is considered necessary in the accompanying standalone financial statements as at March 31, 2015 for reasons explained in the said note.
- c) Note 13(16) regarding the extension of the validity of the approvals obtained by Kakinada SEZ Private Limited ('KSPL'), a subsidiary of the Company from the Government of India for part of the area to set up a Special Economic Zone ('SEZ'). The management of KSPL is confident of obtaining further extension of the approvals, as necessary and also getting the balance area notified for SEZ development as per the applicable regulations.
- d) Note 13(9) regarding (i) cessation of operations and the losses, including cash losses incurred by GMR Energy Limited ('GEL') and GMR Vemagiri Power Generation Limited ('GVVPL'), subsidiaries of the Company and the consequent erosion of net worth resulting from the unavailability of adequate supply of natural gas and (ii) rescheduling of the commercial operation date and the repayment of certain project loans by another subsidiary of the Company, GMR Rajahmundry Energy Limited ('GREL'), pending linkage of natural gas supply. Continued uncertainty exists as to the availability of adequate supply of natural gas which is necessary to conduct operations at varying levels of capacity in the future and the appropriateness of the going concern assumption is dependent on the ability of the aforesaid entities to establish consistent profitable operations as well as raising adequate finance to meet their short term and long term obligations. The accompanying standalone financial statements of the Company for the year ended March 31, 2015 do not include any adjustments that might result from the outcome of this significant uncertainty.
- e) Note 13(10) regarding uncertainties in the key assumptions made in the valuation assessment of the investment in GMR Chhattisgarh Energy Limited ('GCHEPL'), a subsidiary of the Company. In the opinion of the management of the Company, no provision for diminution in the value of investments (including loans) is considered necessary in the accompanying standalone financial statements for the year ended March 31, 2015 for the reasons explained in the said note.
- f) Note 39 regarding receipt of a letter by the Company from National Stock Exchange of India Limited ('NSE') whereby Securities and Exchange Board of India ('SEBI') has directed NSE to advise the Company to rectify the qualification in the Auditors' Report for the year ended March 31, 2013, within the period specified in clause 5(d) (iii) of the SEBI Circular dated August 13, 2012. The Company is in the process of seeking clarifications from NSE in this regard. In this regard also refer sub-paragraph (1) in the Basis for Qualified Opinion paragraph.

Our opinion is not qualified in respect of these aforesaid matters.

NOTE | 1 | CORPORATE INFORMATION

GMR Infrastructure Limited ('GIL' or 'the Company') is a public limited Company domiciled in India. Its equity shares are listed on two stock exchanges in India. The Company carries its business in the following business segments:

a. Engineering Procurement Construction (EPC)

The Company is engaged in handling EPC solutions in the infrastructure sector.

b. Others

The Company's business also comprises of investment activity and corporate support to various infrastructure Special Purpose Vehicles (SPV).

NOTE | 2 | BASIS OF PREPARATION

The financial statements of the Company have been prepared in accordance with the generally accepted accounting principles in India ('Indian GAAP'). The Company has prepared these financial statements to comply in all material respects with the accounting standards notified under section 133 of the Companies Act 2013 ('the Act'), read with paragraph 7 of the Companies (Accounts) Rules 2014. The financial statements have been prepared on an accrual basis and under the historical cost convention.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

NOTE | 2.1 | SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

b Tangible fixed assets

Tangible fixed assets are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of tangible fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing tangible fixed assets, including day to day repairs and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

The Company adjusts exchange differences arising on translation/ settlement of long-term foreign currency monetary items pertaining to the acquisition of a depreciable asset to the cost of the tangible asset and depreciates the same over the remaining life of the asset. In accordance with the Ministry of Corporate Affairs ('MCA') circular dated August 09, 2012, exchange differences adjusted to the cost of tangible fixed assets are total differences, arising on long-term foreign currency monetary items pertaining to the acquisition of a depreciable asset, for the period. In other words, the Company does not differentiate between exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost and other exchange differences.

Gains or losses arising from derecognition of tangible fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the tangible fixed assets and are recognised in the statement of profit and loss when the tangible fixed asset is derecognised.

c Depreciation on tangible fixed assets

Depreciation on tangible fixed assets is calculated on a straight-line basis using the rates arrived at, based on the useful lives estimated by the management, which coincides with the lives prescribed under Schedule II of the Act. The Company has used the following useful lives to provide depreciation on its tangible fixed assets.

Tangible fixed assets**	Useful lives estimated by the management (in years)		Rate of depreciation (straight line basis)
	2014-15	2013-14	2013-14
Plant and equipments	4 to 15 *	21.05	4.75%
Office equipments	5	21.05	4.75%
Furniture and fixtures	10	15.80	6.33%
Vehicles	8 to 10	10.53	9.50%
Computers	3	6.17	16.21%

* The management has estimated, supported by technical evaluation and past experience, the useful lives of plant and equipments.

** The management has estimated the useful lives of asset individually costing ₹ 5,000 or less to be less than one year, which is lower than those indicated in Schedule II.

Notes to the financial statements for the year ended March 31, 2015

NOTE | 2.1. | SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Contd.)

d Intangible assets and amortisation

Intangible assets (Computer software) acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

Computer software is amortised based on the useful life of 6 years on a straight line basis as estimated by the management.

Gains or losses arising from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the intangible assets and are recognised in the statement of profit and loss when the intangible asset is derecognised.

e Impairment of tangible/ intangible assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. For longer periods, a long term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of operations, including impairment on inventories, are recognised in the statement of profit and loss, except for previously revalued tangible fixed assets, where the revaluation was taken to revaluation reserve. In this case, the impairment is also recognised in the revaluation reserve up to the amount of any previous revaluation.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

f Leases

Where the Company is lessee

Finance leases, which effectively transfer to the Company substantially all the risks and benefits incidental to the ownership of the leased item, are capitalised at the inception of the lease term at the lower of the fair value of the leased property and present value of the minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised as finance costs in the statement of profit and loss. Lease management fees, legal charges and other initial direct costs of lease are capitalised.

A leased asset is depreciated on a straight-line basis over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain the ownership by the end of the lease term, the capitalised asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset or the lease term.

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

g Borrowing costs

Borrowing costs include interest, amortisation of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

Notes to the financial statements for the year ended March 31, 2015

NOTE 2.1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Contd.)

h Investments

Investments, which are readily realisable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued. If an investment is acquired in exchange for another asset, the acquisition is determined by reference to the fair value of the asset given up or by reference to the fair value of the investment acquired, whichever is more clearly evident.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

i Inventories

Raw materials, components, stores and spares are valued at lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials, components and stores and spares is determined on a weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Costs incurred that relate to future activities on the contract are recognised as "Contract work in progress".

Contract work in progress comprising construction costs and other directly attributable overheads is valued at lower of cost and net realisable value.

j Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

Revenue from construction activity

Construction revenue and costs are recognised by reference to the stage of completion of the construction activity at the balance sheet date, as measured by the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs. Where the outcome of the construction cannot be estimated reliably, revenue is recognised to the extent of the construction costs incurred if it is probable that they will be recoverable. In the case of contracts with defined milestones and assigned price for each milestone, it recognises revenue on transfer of significant risks and rewards which coincides with achievement of milestone and its acceptance by its customer. Provision is made for all losses incurred to the balance sheet date. Any further losses that are foreseen in bringing contracts to completion are also recognised. Variations in contract work, claims and incentive payments are recognised to the extent that it is probable that they will result in revenue and they are capable of being reliably measured. Contract revenue earned in excess of billing has been reflected as unbilled revenue and billing in excess of contract revenue has been reflected as unearned revenue.

Dividends

Dividend income is recognised when the Company's right to receive dividend is established by the reporting date.

Income from management/ technical services

Income from management/ technical services is recognised as per the terms of the agreement on the basis of services rendered.

Interest

Interest on loans, investments and bank deposits are recognised on a time proportion basis taking into account the amounts invested and the rate applicable.

k Foreign currency translation

Foreign currency transactions and balances

(i) Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Notes to the financial statements for the year ended March 31, 2015

NOTE | 2.1. | SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Contd.)

(ii) Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

(iii) Exchange differences

The Company accounts for exchange differences arising on translation/ settlement of foreign currency monetary items as below:

1. Exchange differences arising on long-term foreign currency monetary items related to acquisition of a fixed asset are capitalised and depreciated over the remaining useful life of the asset.
2. Exchange differences arising on other long-term foreign currency monetary items are accumulated in the "Foreign Currency Monetary Item Translation Difference Account" and amortised over the remaining life of the concerned monetary item.
3. All other exchange differences are recognised as income or as expenses in the period in which they arise.

For the purpose of (iii)(1) and (iii)(2) above, the Company treats a foreign monetary item as "long-term foreign currency monetary item", if it has a term of twelve months or more at the date of its origination. In accordance with MCA circular dated August 09, 2012, exchange differences for this purpose, are total differences arising on long-term foreign currency monetary items for the period. In other words, the Company does not differentiate between exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost and other exchange differences.

I Retirement and other employee benefits

(i) Defined contribution plans

Retirement benefit in the form of provident fund, superannuation fund and pension fund are defined contribution schemes. The Company has no obligation, other than the contributions payable to the provident fund, pension fund and superannuation fund. The Company recognizes contribution payable to the provident fund, pension fund and superannuation fund schemes as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre payment will lead to, for example, a reduction in future payment or a cash refund.

(ii) Defined benefit plan

Gratuity liability is a defined benefit obligation and is provided on the basis of actuarial valuation, based on projected unit credit method at the balance sheet date, carried out by an independent actuary. Actuarial gains and losses comprise experience adjustments and the effect of changes in the actuarial assumptions and are recognised in full in the period in which they occur in the statement of profit and loss as an income or expense.

(iii) Other long term employee benefits

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end. Actuarial gains/ losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

(iv) Short term employee benefits

Accumulated leave, which is expected to be utilised within the next twelve months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

m Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events

Notes to the financial statements for the year ended March 31, 2015

NOTE | 2.1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Contd.)

such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all potential dilutive equity shares.

n Income taxes

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income tax Act, 1961 (the 'IT Act') enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

Deferred tax liabilities are recognised for all taxable timing differences. Deferred tax assets are recognised for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each reporting date, the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Minimum Alternate Tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognises MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognises MAT credit as an asset in accordance with the Guidance Note on Accounting for credit available in respect of MAT under the IT Act, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT credit entitlement." The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

o Segment reporting

Identification of segments

The Company's operating businesses are organised and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.

Allocation of common costs

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated items

Unallocated items include general corporate income and expense items which are not allocated to any business segment.

Segment accounting policies

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statement of the Company as a whole.

p Shares/ debentures issue expenses and premium on redemption

Shares issue expenses incurred are adjusted in the year of issue and debenture issue expenses and redemption premium payable on debentures are adjusted over the term of debentures to the securities premium account, net of taxes, as permitted/prescribed under Section 78 of the Companies Act, 1956/Section 52 of the Companies Act, 2013 to the extent of balance available in premium account.

Notes to the financial statements for the year ended March 31, 2015

NOTE | 2.1. | SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Contd.)

q Provisions

A provision is recognised when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Where the Company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

r Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

s Cash and cash equivalents

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and cash/ cheques/ drafts on hand and short-term investments with an original maturity of three months or less.

t Corporate Social Responsibility (CSR) expenditure

The Company has charged its CSR expenditure during the year to the statement of profit and loss.

3 During the year ended March 31, 2011, GEL had issued 13,950,000 compulsorily convertible cumulative preference shares ('CCCPS') of ₹ 1,000 each to Claymore Investments (Mauritius) Pte. Limited and IDFC group investors (collectively called as PE Investors). These preference shares were convertible upon the occurrence of Qualifying Initial Public Offering ('QIPO') of equity shares of GEL. During the year ended March 31, 2014, GEL entered into negotiations with the PE investors pursuant to which the Company agreed to convert the loans given to GEL and investment in the preference shares of GEL into equity shares of ₹ 10 each at a premium of ₹ 17.50 per share. Accordingly, the Company converted loans given to GEL aggregating to ₹ 1,476.46 Crore and 1% cumulative and non-cumulative redeemable preference shares aggregating to ₹ 495.60 Crore (excluding redemption premium of ₹ 131.25 Crore) into 717,113,641 equity shares of GEL after obtaining the approval of the Board of Directors of the Company and class holders and shareholders of GEL.

The premium of ₹ 131.25 Crore paid on investment in 1% non-cumulative redeemable preference shares was waived off by the Company and the loss of ₹ 131.25 Crore arising on account of the waiver of premium has been disclosed as an exceptional item in the financial statements for the year ended March 31, 2014. The conversion as stated aforesaid and the premium waiver was done to maintain optimum fair value per share at the time of conversion of CCCPS held by the PE investors. This arrangement enabled GEL and the Company to conclude the Amended and Restated Share Subscription and Shareholders Agreements with PE investors at favourable terms.

Further, with a view to restructure its shareholding in energy business, the Company had made following issues/ transfer of shares during the year ended March 31, 2014.

- Out of the total allotment of 717,113,641 equity shares of GEL as stated aforesaid, the Company transferred 180,219,096 equity shares to GREEL, a 100% subsidiary of the Company, at cost. The proceeds of the transfer of shares to GREEL had been utilised for investment in 495,602,500 0.01% compulsorily convertible preference shares of ₹ 10 each of GREEL at par value.
- The proceeds of the issue of 11,366,704 CCPS of face value of ₹ 1,000 each to Series A CCPS and Series B CCPS holders as stated in Note 3(c) had been utilised by the Company primarily for investment in 11,039,649 0.01% compulsorily convertible preference shares of ₹ 1,000 each of GREEL at par value.
- The Company had also purchased DSPL's investment in 1,013,440,000 8% compulsorily convertible preference shares of ₹ 10 each in GREEL. The purchase consideration had been settled against the loan outstanding from DSPL along with interest accrued thereon of ₹ 610.55 Crore and balance had been paid before the year ended March 31, 2014.

NOTE 13 | NON-CURRENT INVESTMENTS (Contd.)

- 4 Refer Note 26 (3) as regards provision for diminution in the value of investment of SGH.
- 5 The Company through GIML has an investment in GMR Infrastructure (Cyprus) Limited, a subsidiary of GIML. GICL has fixed deposits of ₹ 609.16 Crore with Eurobank, Cyprus. The Republic of Cyprus is presently facing economic difficulties. The management of GICL is of the view that in spite of such economic difficulties, the amount held as fixed deposit with Eurobank is good for recovery though withdrawal of the amount from the Republic of Cyprus would be subject to restriction as may be imposed by the Central Bank of Cyprus.
- 6 During the year ended March 31, 2014, with a view to restructure its shareholdings in airport business, the Company had transferred 244,999,900 equity shares of ₹ 10 each held in DIAL to GAL, a 97.15% subsidiary of the Company, at cost.
- 7 The Company through its subsidiary GIML has made investments of ₹ 228.21 Crore (USD 3.62 Crore) (including equity share capital of ₹ 145.67 Crore and share application money, pending allotment of ₹ 82.54 Crore) towards 77% holding in GMIAL and GIML has placed fixed deposits of ₹ 908.06 Crore (USD 14.40 Crore) with lenders towards loans taken by GMIAL. Further the Company has given a corporate guarantee of ₹ 2,475.11 Crore (USD 39.25 Crore) to the lenders in connection with the borrowings made by GMIAL.

GMIAL entered into an agreement on June 28, 2010 with Maldives Airports Company Limited ('MACL') and Ministry of Finance and Treasury ('MoFT'), Republic of Maldives for the Rehabilitation, Expansion, Modernization, Operation and Maintenance of Male International Airport ('MIA') for a period of 25 years ("the Concession Agreement"). On November 27, 2012, MACL and MoFT issued notices to GMIAL stating that the Concession Agreement was void ab initio and that neither MoFT nor MACL had authority under the laws of Maldives to enter into the agreement. It was also stated that MACL would take over the possession and control of MIA within 7 days of the said letter. Though GMIAL denied that the contract was void ab initio, MACL took over the possession and control of the MIA and GMIAL vacated the airport effective December 8, 2012. This has resulted in the GMIAL's principal activity becoming impossible from the date of takeover. The matter is currently under arbitration and the procedural meeting was held on April 10, 2013. On June 18, 2014, the tribunal delivered its award declaring that the Concession Agreement was not void ab initio and is valid and binding on the parties. Further, the tribunal declared that the Government of Maldives ('GoM') and MACL are jointly and severally liable to GMIAL for loss caused by repudiation of the contract. The quantum of the damages is yet to be decided and the damages are limited to the sum which would have been recovered under clause 19.4.3 (b) had the Concession Agreement been terminated on grounds of public interest pursuant to clause 19.2.1 (h). On November 21, 2014, GMIAL served its schedule of loss on the tribunal and on GoM and MACL together with the termination date claim report and the expert report quantifying the losses incurred by GMIAL and which GMIAL assert are recoverable on account of the tribunal's award. Further, GoM and MACL, on November 26, 2014, served a letter on the tribunal and on GMIAL asserting that the parties to the arbitration have different interpretations of the limitation in Paragraph 167(1) (g) of the aforesaid award of the tribunal ('preliminary issue') and the timetable had been agreed by the parties for hearing of the preliminary issue in the first half of 2015. Accordingly, after the tribunal has decided in respect of the preliminary issue, a time table will then be set for the hearing on the substantive quantum of the award. The final outcome of the arbitration is pending as at March 31, 2015. In view of the aforesaid matter GMIAL continues to reflect assets amounting to ₹ 1,486.96 Crore (USD 23.58 Crore) including claim recoverable of ₹ 1,145.16 Crore (USD 18.16 Crore) at their carrying values as at March 31, 2015, net of assets written off of ₹ 202.61 Crore during the year ended March 31, 2013. GMIAL's ability to continue its future business operations and consequential impact on investments made / guarantees given by the Company and GIML is solely dependent on the outcome of arbitration and / or a negotiated settlement.

Further, GMIAL had executed work construction contracts with GADL International Limited ('GADLIL') and other service providers for rehabilitation, expansion, modernization of MIA. Pursuant to the aforesaid takeover of airport, GMIAL has terminated the contracts with GADLIL and these service providers. As per the terms of contracts, in the event of discontinuation of construction, GMIAL is required to pay termination payment to the service providers. GMIAL has received claims of around USD 8.00 Crore as at March 31, 2015 from GADLIL and other service providers. However, no such claims relating to the termination of contracts have been recognized as at March 31, 2015 since the amounts payable are not certain.

Based on the aforesaid award by the tribunal, internal assessment and a legal opinion obtained by GMIAL, the management of the Company is confident that GMIAL would be entitled for compensation under the Concession Agreement at least to the extent of the carrying value of the assets taken over by the GoM / MACL and the subsequent expenditure incurred by GMIAL as at March 31, 2015 and accordingly, these standalone financial statements of the Company do not include any adjustments that might result from the outcome of this uncertainty.

- 8 The Company along with its subsidiaries has an investment of ₹ 389.52 Crore (including loans and interest accrued thereon of ₹ 149.93 Crore and investment in equity / preference shares of ₹ 239.59 Crore made by the Company and its subsidiaries) in GACEPL as at March 31, 2015. GACEPL has been incurring losses since the commencement of its commercial operations. The management believes that these losses are primarily attributable to loss of revenue arising as a result of diversion of partial traffic on parallel roads. The matter is currently under arbitration and the arbitration tribunal has passed an interim order staying the payment of negative grant which was due during the year ended March 31, 2014 and March 31, 2015 till further orders. Based on an internal assessment and a legal opinion obtained by the management, the management of GACEPL is confident that it will be able to claim compensation from relevant authorities for the loss it has suffered due to such diversion of traffic and accordingly, the investment in GACEPL has been carried at cost and no provision for diminution in the value of investments has been made as at March 31, 2015.
- 9 The Company's subsidiaries GEL and GVPGL are engaged in the business of generation and sale of electrical energy from its two gas based power plants of 220 MW and 387 MW situated at Kakinada and Vemagiri respectively. Further, GMR Rajahmundry Energy Limited ('GREL') is a subsidiary which is constructing a gas based power plant. In view of lower supplies / availability of natural gas to the power generating companies in India, these aforesaid subsidiaries are facing shortage of natural gas supply and delays in securing gas linkages. As a result, GEL and GVPGL have not generated and sold electrical energy since April 2013 and May 2013 respectively till the year ended March 31, 2015 and accordingly have been incurring losses including cash

Notes to the financial statements for the year ended March 31, 2015

NOTE | 13 | NON-CURRENT INVESTMENTS (Contd.)

losses on account of the aforesaid shortage of natural gas supply, thereby resulting in erosion of net worth. GREL has not yet commenced commercial operations pending linkages of natural gas supply. These aforesaid companies are actively pursuing / making representations with various government authorities to secure the natural gas linkage / supply as the natural gas supplies from KG D6 basin have dropped significantly from September 2011 onwards. GREL, for its 768 MW gas based power plant, which is under construction at Rajahmundry, has applied for allocation of gas and the Ministry of Petroleum and Natural Gas ('MoPNG') is yet to allocate the gas linkage.

The consortium of lenders approved the reschedulement of Commercial Operation Date ('COD') of the plant under construction to April 1, 2015 and repayment of project loans. GREL in absence of gas linkage sought further extension of COD. The project lenders have agreed for further funding of ₹ 457.00 Crore to GREL to meet its cost overruns on account of delays in commissioning of the plant. During March 2015, the Ministry of Power, Government of India ('GoI') has issued a scheme for utilization of the gas based power generation capacity for the years ended March 31, 2016 and 2017. The scheme envisages supply of imported spot RLNG "e-bid RLNG" to the stranded gas based plants as well as plants receiving domestic gas, upto the target Plant load factor (PLF), selected through a reverse e-bidding process and also intervention / sacrifices to be collectively made by all stakeholders. The gas based power plants of the aforesaid subsidiaries are included in the list of stranded gas based power plants and are entitled to participate in the e-bidding process. GVPGL and GREL have emerged as successful bidders in the auction process organized by the Ministry of Power in May 2015 and have been awarded the Letter of Intent for gas allocation for 4 months from June to September, 2015 which would facilitate the commissioning of GREL and operations of both GREL and GVPGL at 25% PLF. These gas based companies and the Association of Power Producers continue to monitor the macro situation and are evaluating various approaches / alternatives to deal with the situation and the management is confident that GoI would take further necessary steps / initiatives in this regard to improve the situation regarding availability of natural gas from alternate sources in the foreseeable future. The management of the Group carried out valuation assessment of these gas based companies by an external expert which includes certain assumptions relating to availability and pricing of gas, future tariff and other operating parameters which it believes reasonably reflect the future expectations from these projects. The management of the Company will monitor these aspects closely and take actions as is considered appropriate and is confident that these gas based companies will be able to generate sufficient profits in future years and meet their financial obligations as they arise. Based on the aforementioned reasons, business plans and valuation assessment, the management considers that the going concern assumption and carrying value of the investments (including advances) made by the Company directly or indirectly ('investments'), in these aforesaid gas based companies as at March 31, 2015 is appropriate and these financial statements of the Company do not include any adjustments that might result from the outcome of this uncertainty. In the meantime, the Company has also committed to provide necessary financial support to these companies as may be required for continuance of their normal business operations.

- 10 As at March 31, 2015, the Company through its subsidiary, GEL, has an investment of ₹ 2,760.39 Crore (including investment in equity share capital, preference share capital, subordinate loans and interest accrued thereon) in GCHEPL and has also provided corporate / bank guarantee towards loan taken by GCHEPL from the project lenders. GCHEPL is in the advanced stage of construction of 1,370 MW coal based thermal power plant at Raipur district, Chhattisgarh. GCHEPL has obtained provisional Mega Power status certificate from the Ministry of Power, GOI, vide letter dated September 8, 2011 and accordingly has availed an exemption of custom and excise duty against bank guarantees and pledge of deposits. The management of GCHEPL is certain of obtaining Mega Power status, pending which cost of custom and excise has not been considered as cost of the project. GCHEPL has experienced certain delays and cost overruns in the completion of the project. As per the management of GCHEPL, the additional claims from EPC contractors are not expected to be material. GCHEPL is in active discussion with the lenders to restructure its loans and funding of cost overruns. During the year ended March 31, 2015, GCHEPL has been allotted two coal mines to meet its fuel requirements. However, GCHEPL does not have a power purchase agreement ('PPA') currently and is taking steps to tie up the power supply through power supply agreements on long / medium term basis with various customers including State Electricity Boards and is expected to commence generation of power in the earlier part of the ensuing financial year. Due to these reasons, the financial statements of GCHEPL have been prepared on a going concern basis and based on business plans and valuation assessment by an external expert, the management is of the view that the carrying value of the investment in GCHEPL as at March 31, 2015 is appropriate. In estimating the future cash flows, the management has, in the absence of PPAs' made certain key assumptions relating to the future revenues based on externally available information, restructuring of loans to the lenders and operating parameters which the management believes reasonably reflect the future expectations of these items. The Company will monitor these assumptions closely on a periodic basis and take action as is considered appropriate.
- 11 As at March 31, 2015 the Company through its subsidiary, GEL, has an investment of ₹ 1,195.45 crore (including investment in equity share capital and subordinate loans/debentures) in EMCO and has also provided corporate / bank guarantee towards loan taken by EMCO from the project lenders. EMCO is engaged in the business of generation and sale of electrical energy from its coal based power plant of 600 MW situated at Warora. EMCO has accumulated losses of ₹ 926.11 crore which has resulted in erosion of EMCO's entire net worth. EMCO has achieved the COD of Unit I in March 2013 and of Unit II in September 2013 and hence is in the stabilization phase of its operations. EMCO has tied up entire power supplies capacity with customers and has substantially completed the refinancing of its term and other loans with the lenders. Though the networth of EMCO is fully eroded, the management of EMCO expects that the plant will generate sufficient profits in the future years and as such the financial statements of EMCO for the year ended March 31, 2015 have been prepared on going concern basis and based on business plans and valuation assessment by an external expert and continuing financial support by GEL, the management considers that the carrying value of the investment including subordinate loans/debentures in EMCO as at March 31, 2015 is appropriate.
- 12 The Company through its subsidiary has an investment of ₹ 2,485.10 Crore (including investments in equity share capital, subordinate loans and interest accrued thereon) in GMR Kamalanga Energy Limited ('GKEL') and also provided corporate / bank guarantee towards loan taken by GKEL from the project lenders. GKEL is engaged in development and operation of 3*350 MW under Phase I and 1*350 MW under Phase II, coal based power project in Kamalanga village, Orissa and has commenced commercial operation of Phase I of the project. GKEL has a fuel supply agreement for 500 MW with Mahanadi Coal

fields Limited, a subsidiary of Coal India Limited. GKEL has accumulated losses of ₹ 1,343.36 Crore which has resulted in substantial erosion of GKEL's net worth due to operational difficulties faced during the early stage of its operations. GKEL is in active discussion with the lenders for restructuring its loans. GKEL's petition for 'Tariff Determination' in case of PPA with GRIDCO Limited and "Tariff Revision" in case of PPA with PTC India Limited is pending before CERC for disposal. GKEL is hopeful of a favourable order in due course. In view of these matters, business plans and valuation assessment by an external expert and continuing financial support by GEL, the management considers that the financial statements of GKEL have been prepared on a going concern basis and that the carrying value of the investment including subordinate loans in GKEL as at March 31, 2015 is appropriate.

13 During the year ended March 31, 2015, based on a valuation assessment of its investments in GMRHL, the Company made a provision for diminution in the value of investments / advances of ₹ 262.40 Crore which is disclosed as an 'exceptional item' in the standalone financial statements of the Company for the year ended March 31, 2015. The diminution in value has primarily arisen on account of the diminution in the value of investments / advances in GHVEPL and GKUAEL for reasons stated in (a) and (b) below.

a) The Company along with its subsidiaries have made an investment of ₹ 663.15 Crore (including loans of ₹ 361.12 Crore and investment in equity / preference shares of ₹ 302.03 Crore made by the Company and its subsidiary) in GHVEPL. GHVEPL has been incurring losses since the commencement of its commercial operations, as a result of which, based on a valuation assessment of GHVEPL, the Company made a provision for diminution in the value of investments in GMRHL amounting to ₹ 131.41 Crore which is disclosed as an exceptional item in the standalone financial statements of the Company for the year ended March 31, 2015.

Further, the management of GHVEPL believes that the said diminution in value is primarily due to loss of revenue arising as a result of drop in commercial traffic on account of bifurcation of State of Andhra Pradesh and ban imposed on sand mining in the region. The management based on its internal assessment and a legal opinion, believes that these events constitute a Change in Law as per the Concession Agreement and GHVEPL is entitled to the claim for losses suffered on account of the aforementioned reasons and accordingly filed its claim for the loss of revenue till the year ended March 31, 2014 with National Highways Authority of India ('NHAI'). The management is confident that it will be able to claim compensation from relevant authorities for the loss it has suffered due to aforementioned reasons and accordingly considers that no further provision for diminution in the value of investment is necessary as at March 31, 2015.

b) The Company along with its subsidiary made an investment of ₹ 729.43 Crore in GKUAEL (including loans of ₹ 29.43 Crore and investment in equity / preference shares of ₹ 700.00 Crore made by the Company and its subsidiary), which is primarily utilized by GKUAEL towards payment of capital advance of ₹ 590.00 Crore to its EPC contractors and ₹ 130.99 Crore towards indirect expenditure attributable to the project and borrowing costs ('project expenses'). GKUAEL has also provided a bank guarantee of ₹ 269.36 Crore to NHAI. GKUAEL had entered into a Concession Agreement with NHAI on November 30, 2011 for six laning of Kishangarh-Udaipur-Ahmedabad section of National Highways 79A, 79, 76 and 8. Pursuant to non-fulfillment of the mandatory 'Conditions Precedent' specified under the Concession Agreement within the due date, GKUAEL issued a notice to NHAI dated December 21, 2012 of its intention to terminate the Concession Agreement. In response, NHAI vide their letter dated January 1, 2013 termed the notice not maintainable both in law and in facts. NHAI in their letter dated January 17, 2013 to GKUAEL also indicated of making good the alleged defaults of NHAI within the cure period of 90 days. The management of GKUAEL had submitted the proposal for the continuance of the project subject to certain modifications in the financial and other terms in the Concession Agreement and held discussions with NHAI for revival of the project. Considering efforts for revival of the project did not succeed, GKUAEL issued a notice of dispute to NHAI dated February 16, 2015, invoking arbitration provisions of the Concession Agreement. Both the parties have appointed their arbitrators and the arbitration process is pending commencement.

In addition, GKUAEL awarded the EPC contract to GMR Projects Private Limited ('GPPL') and had given an advance of ₹ 590.00 Crore as stated above. Pursuant to the notice of dispute, GKUAEL has terminated the contract on May 15, 2015. GKUAEL is yet to receive any claim from the EPC contractor and as such, no such claim relating to the termination of contract has been recognised by GKUAEL as at March 31, 2015 as the amounts payable are not certain.

Due to the termination of concession agreement with NHAI, initiation of arbitration proceedings and its consequential impact on the operations, the management of the Company, based on its internal assessment, has made a provision for diminution in the value of investments/advances amounting to ₹ 130.99 Crore (including advances of ₹ 5.70 Crore) which is disclosed as an exceptional item in the standalone financial statements of the Company for the year ended March 31, 2015.

Further, based on an internal assessment and a legal opinion, the management of GKUAEL is confident that it will be able to claim compensation from NHAI for the loss it has suffered due to termination of contract for reasons as stated aforesaid and accordingly considers that no further provision for diminution in the value of investments is necessary as at March 31, 2015.

14 As at March 31, 2015, the Company along with its subsidiary has an investment of ₹ 343.53 Crore (including investment in equity share capital of ₹ 5.00 Crore and subordinate loan and interest accrued thereon of ₹ 338.53 Crore) in GBHPL. GBHPL is in the process of setting up 300 MW hydro based power plant in Alaknanda river, Chamoli District of Uttarakhand. The Hon'ble Supreme Court of India ('the Court'), while hearing a civil appeal in the matters of Alaknanda Hydro Power Company Limited, directed vide its order dated May 7, 2014 that no further construction work shall be undertaken by the 24 projects coming up on the Alaknanda and Bhagirathi basins until further orders. Based on its internal assessment and a legal opinion, the management of GBHPL is confident of obtaining the requisite clearances and based on business plan and a valuation assessment by an external expert, the management considers that the carrying value of the investment including subordinate loan in GBHPL as at March 31, 2015 is appropriate.

NOTE | 13 | NON-CURRENT INVESTMENTS (Contd.)

- 15 The Company through its subsidiaries has an investment of ₹ 499.58 Crore (USD 7.92 Crore) (including loan and interest accrued there on) in PT Dwikarya Sejati Utama ('PTDSU') as at March 31, 2015. The Company through its subsidiaries acquired PTDSU for a consideration of USD 4.00 Crore and a deferred consideration to be determined and paid on achievement of certain conditions as specified in the share purchase agreement. PT Duta Sarana Internusa ('PTDSI'), a step down subsidiary of PTDSU had pledged 60% shares of PT Barasentosa Lestari ('PTBSL') with the sellers of PTDSU. The achievement of aforementioned conditions for settlement of deferred consideration had been under dispute and the matter was under arbitration and PTDSI had initiated a civil suit seeking direction to the sellers of PTDSU not to act on the pledge agreement provided as security earlier. Pursuant to a settlement agreement dated June 25, 2014, the Company through its subsidiaries have agreed to pay USD 2.00 Crore towards the deferred consideration to the sellers of PTDSU. As per the settlement agreement, the Company through its subsidiaries has paid USD 0.50 Crore and the balance USD 1.50 Crore are to be paid in 16 equal quarterly instalments, commencing from June 30, 2015. Further, the Company through its subsidiaries have pledged 35% shares of PTBSL as a security towards the payment of the balance instalments. The consolidated financial statements of PTDSU and its subsidiaries PTBSL and PTDSI as at March 31, 2015 have accumulated deficit of ₹ 31.62 Crore (USD 0.50 Crore). PTBSL, a coal property company has commenced coal production and PTDSU and its subsidiaries plan to ramp up the production to 0.25 Crore MT in a two year timeframe. PTDSU and its subsidiaries are dependent on financial support from the Company. As per the aforesaid order, there will be no Passenger Service Fee (Facilitation Component) ('PSF (FC)') for embarking passengers and the same will be considered as part of User Development Fee ('UDF'). Further, the UDF for the period from April 1, 2014 to March 31, 2016 has been determined to be ₹ Nil. Accordingly, revenue from operations, for the year ended March 31, 2015, does not comprise of any income from PSF (FC) and UDF.

GHIAL has filed an appeal challenging the aforesaid AERA order with the AERA tribunal. During the year ended March 31, 2015, GHIAL completed the refinancing of its rupee term loans, whereby GHIAL has received the moratorium period of two years for repayment of such loans and accordingly, the first instalment of these loans is payable on July 31, 2016. With the expected UDF commencing in the next tariff cycle, the financial position is expected to improve thereafter. The first five year control period referred to above ended on March 31, 2014. Pending determination of the final Aeronautical tariff (s) for the second control period i.e. from 2014 to 2019, AERA vide its order 13/2014-15 dated October 14, 2014, extended the operation of tariff order issued on April 24, 2012 up to January 31, 2015 or until the final determination of the tariff for the second control period (i.e. 2014 - 2019), whichever is earlier.

The consultation paper suggests that tariff for aeronautical revenue to be reduced by 78.24% of the existing tariff (i.e. tariff as compared to the first control period). DIAL has filed its reply to AERA with respect to the consultation paper. However, in view of Hon'ble High Court of Delhi judgement dated January 22, 2015, AERA vide its public notice no. 16/2014-15 dated January 29, 2015 extended the tariff till the disposal of

the appeals pending against the first control period tariff order by AERAAT. The revenue so collected by DIAL during this interim period shall be adjusted from the aggregate revenue requirement for the second control period w.e.f. April 1, 2014.
